# How the course works

**English for Everyone** is designed for people who want to teach themselves the English language. Like all language courses, it covers the core skills: grammar, vocabulary, pronunciation, listening, speaking, reading, and writing. Unlike in other courses, the skills are taught and practiced as visually as possible, using images and graphics to help you understand and remember. The practice book is packed with exercises designed to reinforce the lessons you have learned in the course book. Work through the units in order, making full use of the audio available on the website and app.

**Unit number** The book is divided into units. Each practice book unit tests the language taught in the course book unit with the same number.

**Practice points** Every unit begins with a summary of the key practice points.

**Modules** Each unit is broken down into modules, which should be done in order. You can take a break from learning after completing any module.

Hi Bruce,  
I live in a town in England. It's called Foxby and it's really small. There aren't any good cafés or bars here, but it's really beautiful. There's a wonderful park with lots of trees. It's very busy in the park every weekend! Foxby has lots of interesting buildings, too. There's an old church and a large castle. I sometimes visit them with my family.  
Tell me about your town in Australia!
